	6 m	29.9 x 29.9 m
	8 m	39.8 x 39.8 m
LIFESPAN	60 000 h	
COL TEMPS	Warm/Cool White	
CRI	Ra > 80	

POWER FACTOR	> 0.95
VOLTAGE	AC 180 ~ 250 V
WORKING TEMP	-20°C to 50°C
DIMENSIONS	410 x 410 x 445mm
WEIGHT	3.6 kg
PROTECTION	Acrylic Cover
MATERIAL	Acrylic Housing
CERTIFICATION	CE, UL, RoHS

With its stylish design and gentle light, the XGD*125 high bay induction lamp will not only appease the eye, but also your bank balance as you save on electricity costs. Perfectly suited for public places such as shopping malls, supermarkets and exposition centres. This lamp provides excellent light distribution for applications involving lower roof heights. The 125W lamp exceeds almost all HID systems whilst saving in excess of 70% in energy consumption. The use of an electromagnetic lighting system ensures that the lamp life is considerably extended in comparison to other high bay systems. The lamp system will reach 70% of its original brightness after 60 000 hours whilst failure can be expected after approximately 100 000 hours.

PACKAGING: Cardboard box, polystyrene protected.

INSTALLING: Direct connection to 220V power, screw-in induction bulb.

WARRANTY: 3-year manufacturing warranty - incorrect operation, misuse or unqualified installation could result in the warranty being voided. Please contact Lighting Revolution for further explanation on these guidelines.

PRICE: Please contact Lighting Revolution for an official quotation.
