The Econolight™ open channel T5 fixture series is one of the most popular fluorescent lamp options in use today. Well priced and using highly efficient electronic ballasts, this compact system can replace traditional T8 systems without concern for loss of lux. This solution includes T5 tubes with a choice of colour temperature. Mounting brackets and screws included.

- PACKAGING:** Cardboard box, installation instructions provided on request.
- INSTALLING:** Direct connection to 220V power, accessories for mounting.
- WARRANTY:** 2-year manufacturing warranty on electronic ballast, 1 year on tubes.
Installation to be done by a qualified electrician - unqualified installation could result in the warranty being voided. Please contact Lighting Revolution for further explanation on these guidelines.
- PRICE:** Please contact Lighting Revolution for an official quotation.
