The ROBUS LEDCHROIC range is designed with a clever reflector to give a look and feel of a conventional dichroic lamp - albeit with significant power saving. The unit is dimmable and can also be customised with a chrome and white finish depending on end user requirements. The dimmer system is leading- and trailing-edge compatible and the high lumen output ensures that true lux levels of a 50W halogen lamp can be achieved. Used in a conventional 76mm cutout, this high-spec product offers true replacement value of the incumbent high energy 50W dichroic lamps.

**PACKAGING:** Cardboard box, protected for shipment.

**INSTALLING:** Direct connection to 220V power

**WARRANTY:** 3-year manufacturing warranty - incorrect operation, misuse or unqualified installation could result in the warranty being voided. Please contact Lighting Revolution for further explanation on these guidelines.

**PRICE:** Please contact Lighting Revolution for an official quotation.
