

LAMP TYPE

5ft Single Lamp T5 Vapour Proof Fitting

APPLICATION

Factories, Commercial, Car Parks, Food, etc

WORK HEIGHT

Optimal configuration up to 3m

WORK ANGLE

180 degrees

LAMP POWER	35W
TOTAL POWER	35W
LUMENS	3250 LMS
VOLTAGE	220-250V / 50Hz
LIFESPAN	ballast = 30 000hrs, tube = 20 000hrs
CRI	> 80
PROTECTION	IP65 rated

CERTIFICATION	CE, IEC, RoHS
PHYSICAL SIZE	1510 x 68 x 81mm
COLOUR TEMP	6400K, Cool White
LAMP TYPE	T5 Fluorescent with electronic Ballast
MATERIAL	ABS Base + PC Cover

The Econolight™ T5 fluorescent vapour proof fittings are ideal for use in environments that might require protection from the local environment an adverse weather but it is also considered for applications where safety and glass breakage prevention is required. These include businesses where food is involved and HACCP standards are to be successfully matched. The vapour proof lamp system is supplied with hanging fixtures, screws and hooks for attachment to the required surface. Lamps and a high power factor ballast are included in the kit to ease installation. No reflectors are used in this fitting type so Lighting Revolution suggests that when considering a T8 to T5 replacement, sizes should remain the same i.e. 5 ft T5 fixtures should replace 5ft T8 lamps.

PACKAGING: Cardboard Box, installation instructions provided on request

INSTALLING: Direct connection to 220V power, accessories for mounting

WARRANTY: 2 year manufacturing warranty on electronic ballast, 1 year on tubes
Installation is required to be done by a qualified electrician - unqualified installation could result in the warranty being voided. Please contact Lighting Revolution for further explanation on these guidelines.
